### THE WOOL DUTY.

How Free-trade Will Affect the Price of the Farmer's Suit.

Price of the Farmer's Statt.

Commercial Gazette.

The reduction of wool duties has taken place at last, and we shall see whether the people at large are to be so enormously benefited as the Democracy have promised. One thing is certain, there is to be a reduction of revenue to the extent is no doubt that there is to be a rapid saughter of sheep, and one of the industries that needs Protection is shout suffer by daily contact losses that have to some extent been anticipated. Chanda has enjoyed the blessings of Prestrade, or nearly so—her duty on wool being, or nearly so—her duty on wool being, or nearly so—her duty on wool being the contact has enjoyed the blessings of Prestrade, or nearly so—her duty on wool being. The growth of our wool proude. We have the sound of all contact and the state of all contacts. All the sound of all contacts are sound to the state of all contacts and the state of all contacts. The growth of our wool product was expected to the state of all contacts and the state of all contacts are sound. The growth of our wool product was cover 300,000 pounds from 1890, Pine Ohlo fiseer, soured, to March, 1894, was 45; cents a pound, and in London Australian freee, soured, was 32 cents a pound—the Ohlo covering twelvey wars, from 1881 to 1892—"The difference in price of these two only 134 cents higher than the Australian—or, as Senator Aldrich stated the facts covering twelvey wars, from 1881 to 1892—"The difference in price of these two grades of source wool (which are showed identically the same in quality and use) of Great Britain bought his wool at a price which was 32 cents per soured pound (see than his American competitor and for the same than quality and use) of Great Britain bought his wool at a price which was 32 cents per soured pound (see than all contacts and the same in quality and use) of Great Britain bought his wool at a few the same in quality and use) of Great Britain bought his wool at a few the same in quality and use) of Great Britain bought his wool at a few the same in qua

pound less than his American competitor point for his sourced wool of the same.

There has been a phenomenal increase in the quantity of wool produced, and the price has accordingly declined. This, in the United States, the Democratis have charged to Protection, and made some impression. One would have supposed, from the average Democratic speech, that the cutting down of the duty on wool would raise the price of it. The fact is that such are the advantages of the wool growers in Australia that our farmers cannot, unprotected, compete with them. The United States has produced one-sixth of the wool of the world, and farmers who are drawn into other lines of production will compete in the reduction of the compensation of labor. The Democrats have been engaged in

reduction of the compensation of labor. The Democrats have been engaged in arguing that the reduction of duty on wood will wonderfully cheapen clothing to the people of the United States. The price of raw wool is, however, not the main matter in determining the cost of a suit of all wool cothes. This was fully set forth in the Senate debate. The set forth in the Senate debate. The cost of cloth in a suit was shown by Senator Aldrich to be 36.7 per cent. of the retail price of a suit of clothes. The cost of a suit, wholesale price \$16. The cost of a suit, wholesale \$2.3, retail \$20, was made of cloth \$7.5, trimmings \$1.50, labor \$4.10, expense and distribution, wholesale \$2.3, retail \$4: other expense 40 cents.

In the sample suit of clothes was \$1.50 yards, or 4 pounds of cloth, the cost of the suit. The Senator said, coming to the question as to the chaepening of the suit by a proposed change of duty—now in the law:

in the law:
The difference in the cost of the cloth, by reason of the wool duty, would be about one-fifth of that percentage of 36,9. So that in no case would the cost of this suit of clothes be varied by the removal of the wool duty by more than 7.3 per

### AMERICA FOR AMERICAS AMERICANS

TEKINLEY AND WILSON ABROAD.

In 1890 William McKinley was burned in effect in the English manufacturing city of Sheffield; but in 1894 William L. Wilson was dined and wined in London because he is the author of a Free-trade Turiff Bill. These are significant facts.

THE delinquent tax list in Brown unty, O., this year is the largest ever town.—Bulletin.

Excuse the inquiry, but isn't Brown a Democratic county, and isn't this a Democratic year?

NEWPORT has two Police Judges, demoralized police administration and an epidemic of robberies. The Demo-cratic Police Judge claims that he has two years longer to serve and refuses to give way to the Republican elected to succeed him. How these Democrats do hold on to the offices, to be sure!

THE LEDGER denies the story about the Republican Committee of Lewis county being sued on that campaign whisky bill. The Committee paid, did they?—Flemingsburg Times-Democrat.

Is it out of your line to tell the truth? THE LEDGER never denied any such thing. It was Messrs. CLARK BROS., to some liar said that the amount was due, that denied the story over their own signature; and THE LEDGER printed the denial as coming from them.

It is the Republican contention that two bond issues contributed to paying the Government's expenses instead of being exclusively used to maintain the gold reserve, and that the present critical situation is not due as much to the currency laws which provide for the redemption of legal tenders as it is to the failure of the Democratic Tariff

Law to provide sufficient revenue.

Treasury figures show this.

Treasury figures show this.

It appears that when the Democratis took charge of the Government in 1883 the cash balance was \$125,000,000, This balance is today \$151,000,000, or \$25,000,000 more than when the Democrats took control. Outside of the revenues, the bond issues have brought in \$116,000,000, of which \$16,000,000 was premium. It is thus seen by subtracting M.C. Russell & Son premium. It is thus seen by subcracting the \$25,000,000 excess from the funds obtained by the bond issues that the Treasury has used \$91,000,000 of the bond money for current expenses, indicating a total deficiency of that amount. If the bond money had been used only for the reserve, no matter how much gold was exchanged for greenbacks, the present cash balance would be \$116,000. 000 more than it was in March, 1893.

Ex-Tailed States Attorney Burnet's Sentence Amount to That.

Cixcaxed Amount to That.

Cixcaxed Amount to That.

Extended States attorney, was Saturday morning sentenced to be imprisoned in the Lebanon jail for life for contempt of court in prefusing to answer questions put to him in the course of the Eliza J. Bennett bond case.

Such is the effect of the sentence inposed by United States District Judge George R. Sage. Saturday morning: time after sixty days by the production of the bonds.

In pronouncing sentence for contempt Judge Sage said that he could deither of two things—make it a criminal offense or consider it in the other jught of compelling a witness to testify and imprisonment till testimony is sentenced.

will recover.

Powder-Mill Explodes—Three Klied.

Powder-Mill Explodes—Three Klied.

Yallow Shipuso, O., Jan. 7.—A powder mill at foes, near here, exploded the three men—Cill Horney, Adolph Krebel and Arthur Harris. The explosion was a terrific one, and was heard for miles. At first it was thought that a number of others had met death, but a careful investigation shows that there were but three victims. The explosion wrecked the buildings, pieces being blown for 100 yards. The unfortunate men were litterally blown to pieces.

Miner Cenvention.
Collympic, O., Jan. 7.—The call for the national convention of the United Mine Workers of America will be is used Monday. February is is the date. A circular will also be issued to the cellular will be also be

FROM JAPAN.

No Butchery of Civilians by Japs at Port Arthur.

Neither Did They Murder the Wounded and Mutilate the Dead.

Von Hanneken, a German, the Acti ead of the Chinese Army Now-He Has Power That No Other For-eigner Ever Had Before.

Toxio, Japan, Dec. 21.—(Correspondence of the United Press, per steamer China.)—Full investigations goto show, that considerable modifications must be applied to the first reports circumstances to the state of the state of the part of the Japanese troops and land transport corps engaged in the capture of Port Arthur. Two circumstances unquestionably did impart exceptional quality to the lighting of the Japanese troops and land transport corps engaged in the capture of Port Arthur. Two circumstances of the state of the Japanese transport corps engaged in the capture of the control of their dead in days immediately preceding the final assaults. Two other was the fact that the Chinese solilers was the fact that the Chinese solilers used the town of Port Arthur as a refuge after the fall of the forts, and that many of the citizens had been the state of th

ieveled a rifle or raised a sword against a noncombatant eivilian, still bess against a woman or child. After all, the arithmetic of casualties shows that there was little margin for these all the arithmetic of casualties shows that there was little margin for these all the arithmetic of the arithmetic of the control of

sacrificing her title.

Losdy Reads Her Arm.

Etwoon, Ind., Jan. 7.—Mrs. Anna
McBride, a well-known lady of this
city, met with a fearful accident. She
accidentally fell on the ice and suffered
a compound fracture of the right arm
above the elbow, the pieces of bone
cutting through the flesh in a horrible
manner. The arm was dressed with
much difficulty and will leave her a
cripple.

A Tray of Diamonds Stolen.

Wato, Tex., Jan. 7.—Two men entered the jewelry establishment of J. Levinski, No. 407 Austin avenue, and after examining some jewelry, left. After they were gone it was discovered that a tray containing diamonds was gone. No arrests have been made.
